

Voucher Issuers Association

## **Meal voucher issuers in solidarity with the Grand Duchy's economic recovery**

Luxembourg, May 14, 2021 - **VIA, the Association of Meal Vouchers Issuers, has taken note of the article on meal vouchers and their use in Luxembourg's hotel and catering industry that appeared in your media this afternoon.**

As issuers of vouchers, our primary mission is to deploy a virtuous social measure ensuring, on the one hand, an injection of funds into the local economy that generates and maintains non relocatable jobs, and on the other hand, to secure access to food for employees, certainly in times of crisis.

Aware of the changes in the world of work as well as the evolution of catering and eating habits of employees, the association has been pleading since a while for a modernization of the legislation governing their use in the Grand Duchy of Luxembourg, following the example of what has already been put in place in many other European countries. A complete file in this respect has been submitted to the Luxembourg administration for consideration. Issuers, through their professional association, are therefore fully open to discussion with a view to accentuating their role as an instrument for the recovery of the hotel and catering industry at the end of this unprecedented crisis.

### **About VIA Luxembourg :**

#### **VIA stands for Voucher Issuers Association.**

It represents the interests of companies issuing social prepaid vouchers. Every year, several thousand Luxembourg workers benefit from a net salary supplement intended to guide their purchasing behaviour, in the form of meal vouchers or gift vouchers. The VIALuxembourg federation defends the interests of its members. This website offers you a panel of information concerning news of the sector and the activities of the Association.
